Job Description

Our client, MNC Manufacturing Based Company, looking for suitable candidates.

JOB RESPONSIBILITIES

- Process Integration and Optimization: Collaborate closely with cross-functional teams to develop, integrate, and optimize manufacturing processes, alignment with IATF 16949, ISO 14001, and ISO 9001 standards.
- Implement best practices and methodologies to enhance process efficiency, product quality, and environmental sustainability.
- Equipment Selection and Design: Evaluate, select, and design manufacturing equipment and tooling, taking into consideration specific requirements related to motor production.
- Collaborate with equipment suppliers to ensure the chosen equipment meets industry standards and production needs.
- Continuous Improvement: Proactively identify opportunities for continuous improvement

across manufacturing processes, equipment efficiency, and environmental performance.
Implement sustainable solutions that contribute to operational excellence

JOB REQUIREMENTS

- Bachelor's degree in manufacturing engineering, Mechanical Engineering,
- Extensive experience in manufacturing engineering, with a significant focus on process integration, equipment design, and motor-related processes.
- In-depth knowledge of IATF 16949, ISO 14001, and ISO 9001 standards, and experience implementing processes in accordance with these standards.
