Job Description

COMPANY OVERVIEW

Our client is a global manufacturer and distributor of components and equipment, supporting automation and manufacturing industries.

JOB RESPONSIBILITIES

- Develop and manage the product lineup based on market trends and customer needs.
- Analyze historical data using statistical tools to forecast product demand.
- Monitor inventory levels to minimize stockouts and ensure timely replenishment.
- Collaborate with suppliers to optimize product profitability, reduce costs, and expand offerings.

- Ensure timely delivery of products by coordinating closely with suppliers and expediting orders when necessary.
- Respond to customer inquiries via phone and email, and liaise with suppliers to resolve issues.
- Maintain and update the product master database to ensure data accuracy.
- Work with internal departments on product-related initiatives such as promotions, quality checks, and other activities.
- Compile and analyze product statistics to generate insightful reports.
- Perform other related duties as assigned.

#### JOB REQUIREMENTS

- Diploma or Degree in Business, Supply Chain, Data Analytics, or a related field.
- 1–3 years of relevant experience in B2B industrial sales.
- Proven experience in inventory and supply chain management.

Working Location: Singapore
