Job Description

- This role involves planning services and managing projects from concept to delivery. You will collaborate with multiple stakeholders to ensure successful execution.

Client Details

- A forward-thinking organisation focused on creating innovative digital services and enhancing user experience. Committed to growth and excellence through cutting-edge technology and strategic planning.

Description

- Plan and design services aligned with business strategy
- Analyse business needs and define functional requirements
- Propose new features based on market and internal research
- Manage project progress and QCD (quality, cost, delivery) with engineers
- Communicate and negotiate with internal and external stakeholders
- Formulate annual development plans

Job Offer

- Career growth in a rapidly evolving industry
- Working hours: 9:00 AM - 5:30 PM
- Remote work available
- Free meals at the in-house cafeteria
- Attractive Tokyo-based location

If you are excited about this opportunity and meet the requirements, we encourage you to apply and take the next step in your career.
