Job Description

Company and Job Overview

A reputable trading company specializing in machinery and equipment for factories (domestic and import/export) is seeking a Sales Engineer due to business expansion.

Job Responsibilities

- Conduct sales presentations, prepare and issue quotations, negotiate contracts, and manage delivery processes for machinery and equipment supplied to factories across various industries (automotive, food, chemical, pharmaceutical, electrical, petrochemical, etc.)
- Support senior sales staff in preparing quotations and proposals as part of on-the-job training before transitioning into a full sales role
- Handle sales and support activities related to Biomass Fuels (wood pellets, PKS, EFB pellets)

- Manage export sales to Japan and ASEAN markets, including supplier research, price negotiation, quality checks, and shipment coordination
- Develop new customers and source new suppliers to expand business opportunities

Job Requirements

- Degree in Mechanical Engineering, Electrical Engineering, Business, Marketing, or a related field
- At least 3 years of industrial sales experience, preferably in selling machinery and equipment
- Ability to prepare quotations and proposals, and to handle contract negotiations professionally
- Strong customer service mindset with the ability to build and maintain long-term client relationships
- Able to support export sales activities (Japan & ASEAN), including price negotiations and shipment coordination
- Positive attitude with a willingness to travel both locally and internationally
- Applicants should be Malaysian citizens or hold relevant residency status
