Job Description

OVERVIEW

Our client, an energy company specializing in renewable energy solutions. The company works closely with EPC partners to deliver efficient and sustainable energy systems across various project scales. This role offers exposure to end-to-end solar project coordination, cross-functional collaboration, and hands-on involvement real project execution – ideal for engineers looking to grow within the renewable energy sector.

JOB RESPONSIBILITIES

- Act as technical liaison between the company and EPC vendors to ensure project requirements are clearly understood and executed
- Review and coordinate technical discussions, specifications, and project documentation related to the project
- Support project implementation

Participate in site visits when required

JOB REQUIREMENTS

- Bachelor's Degree, preferably from Engineering background
- Having experience in renewable energy industry, have exposure to solar pv related projects would be a plus
- Able to communicate in English
