Job Description

Job Description:

- Oversee the organization's end-to-end production planning activities and overall management of the planning function.
- Assess production requirements based on plant capacity, identify bottlenecks, and provide recommendations to address capacity shortages or surpluses as needed.
- Take a proactive approach in anticipating potential issues, making informed decisions, leveraging opportunities, and mitigating risks at the earliest stage.
- Lead weekly and monthly Master Production Schedule (MPS) meetings and prepare all required reports for management review.
- Collaborate closely with cross-functional teams to resolve daily operational matters and ensure the department's activities run efficiently and effectively.
- Supervise and manage departmental staff, ensuring all tasks are completed accurately and on time.
- Carry out any additional ad-hoc assignments as required.

Job Requirements:

- Possess at least a Bachelor's Degree or Professional Qualification in Engineering, Business Administration, Supply Chain Management, Economics, or other related business disciplines.
- Minimum of 3 years of managerial-level experience, preferably within a fast-paced manufacturing environment and in a relevant field.
- Strong knowledge of end-to-end Supply Chain Management, supported by advanced analytical and problem-solving abilities.
- Able to adapt to changing priorities while managing multiple tasks and responsibilities effectively.
- Capable of motivating individuals and teams to achieve or exceed performance expectations.
- Proficient in Microsoft Office applications such as Outlook, Word, Excel, and PowerPoint.
- Experience as an SAP key user and familiarity with ERP systems is an advantage.
