### Job Description

We are a pioneer among domestic grinding machine manufacturers, having developed Japan's first gear grinding machine in 1930 and the first domestically produced surface grinding machine in 1953. We have introduced products across a wide range of fields, and our high-precision, high-quality machines are operating worldwide. Among our current bases, Thailand is the largest and serves as one of the most important sites within the company. To nurture individuals who will take on the next generation of business within our organization, we are conducting this recruitment activity.

**Position:** Mechanical & Electrical Engineer

**Industry:** Grinding Machine Manufacturer

**Location:** Wangnoi, Ayutthaya

**Working days/hours:** Monday-Friday, 1-2 Saturdays/month, 07:30-16:30 hrs.

**Responsibilities:**

We are seeking a Mechanical and Electrical Engineer to support factory equipment maintenance and facility systems. The role involves preventive maintenance, troubleshooting, and coordination across mechanical, electrical, environmental, and energy management systems, ensuring smooth factory operations.

- Maintenance & Control
  - Develop and execute preventive maintenance (PM) plans for machines and cranes.
- Factory Building Systems
  - Maintain and oversee systems including high voltage and factory electricity, lighting, solar rooftop, civil works, waterworks, sanitation, air conditioning, fire extinguishing, emergency signals, CCTV, and public address systems.
- Environmental Systems
  - Manage pollution treatment systems (water, air) and related environmental projects.
- Energy Management
  - Implement and monitor energy management systems and related projects.
- Mechanical Design & Installation
  - Drawing, design, copying, and improvement of machine parts.
  - Fabrication and installation of machines.
  - Handle permit applications related to machinery.
- Building & Facility Design
  - Drawing and design for buildings, factories, and facility systems.
  - Manage permit applications related to construction and facility projects.

**Qualifications:**

- Experience : 5-10 Years (Staff, Superintendent.) in related Job.
- Person Responsible for Energy (PRE, S-PRE) Certificate from Energy Dpt. will be advantage.
- Ability to read and create technical drawings, including three-view drawings
- Strong problem-solving, communication, and teamwork skills
- Bachelor in Electrical Engineering or Mechanical Engineering
- English: Intermediate level or above to work with Japanese staff

**Benefits:**

- Salary adjustment 4-5% /year
- Bonus ~1.6 months/year in December (depends on company profit)
- OT (depends on position)
- Meal: 50% support at canteen
- Shuttle bus
- Annual leave max 12 days
- Provident Fund
- Social security
- Medical check up
- Company trip

**How to Apply:** If you meet the qualifications and are excited about this opportunity, please submit your resume and a cover letter by click "APPLY" We look forward to hearing from you!

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
