Job Description

Position: Engineering Supervisor

Qualifications:

- Bachelor's degree in Engineering or other related fields.
- At least 5 years of work experience in maintenance, control, or installation of machinery.
- Deep understanding of PLC (Programmable Logic Controller) operations and automated control systems.
- Must own a private vehicle and be able to commute to work independently.
- Candidates who have completed the Senior Energy Responsible Person (Electrical Theory) training course will be given special consideration.

Job Description:

- Plan and oversee the installation of new plastic injection molding machines, including electrical systems, hydraulics, and cooling systems, ensuring compliance with engineering standards.
- Define and adjust injection parameters (e.g., Temperature, Pressure, Speed, Holding time) to ensure optimal production.
- Plan and execute scheduled machinery maintenance to prevent major breakdowns and extend equipment lifespan.
- Perform Root Cause Analysis (RCA) when machinery malfunctions, covering mechanical, hydraulic, electronic, and PLC systems.
- Propose machine improvement strategies to enhance Cycle Time or reduce energy consumption.
- Supervise and manage the stock of essential spare parts to ensure they are available for timely repairs.
