Job Description

Overview:

Our partner company is looking for "IT Strategy & Digital Transformation (Senior IT)". This position plays a key role in shaping the company's IT direction and driving digital transformation initiatives across the organization. The role focuses on IT strategy planning, project execution, application implementation, and governance.

Location: Samut Prakan (Near Bangkok, BTS Accessible)

Responsibilities:

- Develop, review, and update the company's IT strategy to ensure alignment with business priorities.
- Lead annual IT budgeting, including planning, execution monitoring, and cost optimization.

- Oversee the deployment, enhancement, and maintenance of IT applications and infrastructure.
- Coordinate with internal business teams to manage IT projects and ensure effective collaboration between IT and business stakeholders.
- Drive organization-wide digital transformation (DX) initiatives, define KPIs, and support teams in achieving transformation targets.
- Manage strategic IT vendors, including evaluation, performance monitoring, contract management, and service quality reviews.
- Ensure compliance with applicable data protection laws and cybersecurity regulations, work with security teams on audits and remediation plans.
- Provide leadership during critical IT incidents, including system outages, cybersecurity events, or infrastructure disruptions; lead root-cause and prevention activities.
- Support team development through guidance, coaching, and performance review activities.

Qualifications:

- Bachelor's degree or higher in Computer Science, Information Systems, Engineering, or a related discipline.
- Minimum of 5 years' experience in IT or IT strategy, plus 3 years in people or team management such as performance evaluation and staff development.
- Proven success in leading large-scale application implementation projects, particularly in CRM or ERP environments.
- Demonstrated capability in IT strategy planning, roadmap creation, and digital transformation initiatives.
- Strong project management capabilities, with experience balancing scope, budget, and stakeholder expectations.
