Job Description

Security Operations Lead
My client is seeking a SOC Lead to shape the future of our Security Operations Center (SOC). This strategic role combines oversight of day-to-day security operations (Day-2) with driving modernization initiatives that enhance threat detection, accelerate response, and improve efficiency.

You'll lead incident response, manage MSSP partnerships, and champion automation, forensics, and continuous improvement. This is an opportunity to build a next-generation, intelligence-driven security operations function that stays ahead of evolving threats.

Key Responsibilities

- Transform and mature SOC capabilities, leveraging SOAR platforms and automation playbooks.
- Oversee enterprise security technologies (Firewalls, XDR, IPS, PAM, Email Gateways).
- Lead end-to-end incident response and digital forensics investigations.
- Develop KPIs, dashboards, and reports for leadership visibility.
- Manage MSSP relationships and ensure SLA compliance.

Ideal Profile

- 10+ years in cybersecurity with SOC and incident response leadership.
- Experience in SOC transformation and SOAR automation.
- Strong technical foundation across network, endpoint, and identity security.
- Certifications like CISSP, GCIH, GCFA preferred.
- Skilled in scripting (Python, PowerShell) and familiar with frameworks like NIST and MITRE ATT&CK.
