Job Description

Position: Production Engineer Assistant Manager. (Food manufacturing)

Salary: 40,000 – 60,000THB +/- (Negotiable)

Location: Saraburi

Our client is big brand Food manufacturing. (Food Processing)

Key Responsibilities of the position:

Business Development Manager / Specialist (Energy Projects)

Production Oversight:

- Supervise daily production activities to ensure targets (Output, Yield, OEE) are met.
- Monitor and analyze production data to identify bottlenecks and implement corrective actions.

Process Optimization & Engineering:

- Implement Lean Manufacturing, Kaizen, or Six Sigma to reduce waste and improve efficiency.
- Oversee machine maintenance coordination and troubleshoot technical issues on the production line.

Food Safety & Quality Compliance:

- Ensure all processes strictly adhere to GMP, HACCP, BRC, and ISO 22000 standards.
- Collaborate with the Quality Assurance (QA) team to minimize product defects and ensure hygiene protocols.

Cost Management:

- Control production costs by optimizing raw material usage and reducing energy consumption.
- Assist in budgeting and CAPEX (Capital Expenditure) planning for new machinery or technology.

Safety (HSE):

- Enforce Occupational Health and Safety standards to ensure a zero-accident workplace.

Qualifications

- Bachelor's Degree in Food Engineering, Industrial Engineering (IE), Chemical Engineering, or Food Science.
- Experience: 5+ years of experience in food manufacturing, with at least 2 years in a supervisory or senior engineer role.
- Technical Skills: * Deep understanding of Food Processing Technology (e.g., Thermal processing, Freezing, or Packaging).
