Job Description

Company overview

Our client is a product-based IT company with 100% Japanese investment.

Job Description

- Join fast-growing engineering team and help us build innovative, high-impact services using modern technologies.
- As a key member of our product development team, you'll work in a collaborative environment that values ownership, transparency, and continuous learning.

Requirements

- 4+ years of hands-on experience in Ruby on Rails development.

- Strong practical knowledge of database schema design.
- Familiarity with agile development workflows and version control using Git.
- Business-level English communication skills.
- Willingness and ability to work on-site at our Ho Chi Minh City office.
