### Job Description

Role: Officer- Cost Estimation

Location: Bidadi

### Job Role & Responsibilities

- Analyze new project drawings and engineering changes to develop Bill of Materials (BOM) and cost sheets.
- Summarize technical data from drawings and BOM for reporting and decision-making.
- Estimate costs for engineering changes and new development parts (e.g., stamping, injection moulding).
- Utilize MS Excel for data creation, modification, and workflow optimization.
- Coordinate and follow up with cross-functional teams using strong interpersonal and communication skills.
- Understand and apply key manufacturing processes such as stamping, injection moulding, assembly, and welding.
- Prepare and deliver presentations for top management on project progress and cost analysis.

#### Key Competencies

- Proficiency in studying and interpreting engineering drawings.
- Strong understanding of process flow in manufacturing.
- Knowledge of stamping, injection moulding, and assembly processes.
- Expertise in cost estimation and market research within the automotive industry.
- Advanced skills in MS Excel for data analysis and reporting.
- Effective communication and coordination abilities for cross-functional collaboration.
