Job Description

POSITION SUMMARY

A leading organization is seeking a Senior Associate in Corporate Planning to drive strategic initiatives, enhance business infrastructure, and lead transformative, data-driven projects. This role requires a blend of strategic thinking, analytical excellence, and the ability to independently manage complex cross-functional programs. The position also offers opportunities to collaborate with global leadership and mentor junior team members.

RESPONSIBILITIES

- Lead high-impact corporate initiatives by developing long-term strategies and strengthening company-wide planning functions.
- Drive data-driven decision-making through advanced analytics, KPI frameworks, and performance monitoring.
- Manage major cross-functional projects across Supply Chain, Logistics, Sales, and Operations to modernize and optimize business processes.

- Collaborate closely with global headquarters, ensuring alignment on business management practices and data standards.
- Evaluate capital investment opportunities and support the end-to-end M&A process, including analysis and integration planning.
- Oversee full project lifecycles—scoping, planning, execution, stakeholder alignment, and risk management—while delivering measurable outcomes.
- Synthesize complex quantitative and qualitative data into actionable insights for senior leadership.
- Mentor junior team members and help elevate analytical capabilities across the organization.

QUALIFICATIONS

- Bachelor's degree in Business, Economics, Finance, Accounting, Statistics, or Business Analytics; Master's degree in a quantitative field preferred.
- 5–7 years of experience in corporate planning, strategic management, consulting, or a senior corporate staff role with exposure to large-scale projects.
- Strong capability in leading complex, cross-functional initiatives and driving measurable business outcomes.
- Advanced analytical skills, including the ability to build quantitative and qualitative models for performance diagnosis and forecasting.
- Proficiency with analytics and BI tools such as Tableau, Power BI, SQL, as well as advanced Excel functions.
- Demonstrated ability to synthesize complex data sets and communicate insights clearly to non-technical stakeholders.
- Solid understanding of global operations, governance, risk management, and the investment/M&A lifecycle.
- Strong interpersonal, communication, and negotiation skills with the ability to influence diverse stakeholders and lead teams effectively.

SALARY USD \$82,800 – \$97,400

LOCATION Santa Fe Springs, CA

BENEFITS

- Health, dental, vision, life & accident, and pet insurance
- 401(k) with company matching
- 19 days of paid time off
- Wellness program and EAP assistance and much more!
