Job Description

Our client, a prominent US-based semiconductor firm located in Penang is hiring for Financial Analysis Manager to lead dashboard review and review critical metrics on financial analysis

Job Responsibilities

- Project Management/ Data Analysis Focus
- Lead all aspects of large, cross-functional projects, ensuring world-class execution.
- Build and update dashboards for reviewing key performance indicators.
- Continuously review the relevancy of critical metrics to market trends, benchmarking against outstanding entities.
- Research, benchmark, and analyze data to make actionable recommendations for the shared service industry.

- Drive continuous process improvement for shared services, evaluating progress and determining functional focus and metrics for success.
- Lead and manage cross-functional projects to successfully implement automation and AI solutions that boost efficiency.
- Identify and deploy AI opportunities within scope, ensuring a flawless execution.
- Serve as a strategic advisor to leaders and projects, driving digital transformation.
- Build and foster long-term partnerships within the organization and with cross-functional partners.
- Plan and lead engagement activities and special events to improve team collaboration.
- Quickly assess and address challenges that hinder organizational efficiency and team performance.
- Ensure compliance and strengthen governance through internal reviews, audits, and effective control management.

Job Requirement

- Flexibility and adaptability to handle dynamic priorities.
- Proven project management expertise with strong execution capability.
- Proficiency in digital tools (Power Automate, UiPath, AI, Power BI, Snowflake, and other automation platforms).
- Analytical approach with experience in dashboard/reporting.
- Strong communication and collaborator engagement skills.
- Outstanding collaborator with experience in a dynamic organization.
- Ability to explain financial matters succinctly to non-finance personnel.
- Bachelor's degree or equivalent experience in Accounting, Finance, Business Administration, or related field
- Hands-on experience in digital transformation, automation, and AI adoption.
- Strong collaborator management skills and ability to work independently.
- Over 5 years of experience in SAP ERP, including proven experience in process automation.
- Experience in Six Sigma, LEAN thinking.
