Job Description

Company Profile:

Our client is a global leader in automotive technology, driving innovation in mobility solutions like electrification, thermal systems, and smart electronics.

Job Summary:

Responsible for managing customer claims by verifying issues on-site, coordinating with plant teams for investigations and reports, and ensuring timely communication and resolution. This role also involves negotiating with customers and supporting quality-related activities to meet deadlines and maintain satisfaction.

Job Responsibilities:

- Handle customer complaints and inline claims with timely inspections, corrective actions, and reporting.

- Collaborate with OGC and internal teams to improve pass-through product quality and share performance data.
- Respond to customer issues on the same day and monitor new product quality for the first three months.
- Prepare and submit monthly quality reports to sales management.
- Support internal and external audits and track customer feedback.
- Investigate quality issues and propose effective countermeasures.
- Ensure compliance with company-wide KPIs (training, overtime, suggestions, etc.).

Job Requirements

- Bachelor's Degree in Engineering, Business Administration, or a related field.
- Minimum 3 years of experience in the automotive industry or a similar role.
- Strong experience in handling inline claims and customer complaints.
- Fresh graduates are welcomed to apply.
- Skilled in data analysis and reporting.
- Proficient in Microsoft Office (Excel, Word, PowerPoint).
- Excellent decision-making, teamwork, and problem-solving abilities.
- Strong communication and negotiation skills.
