Job Description

Company & Job Overview

A Malaysia-based logistics company specializing in integrated door-to-door forwarding, transportation, cargo handling, and warehousing services is seeking a Programmer to join their growing team.

You will play a key role in developing, testing, and maintaining in-house systems and mobile applications, ensuring seamless operations across our logistics network. This role involves system design, database optimization, API integration, and troubleshooting, requiring strong programming expertise, analytical thinking, and effective collaboration skills.

Key Responsibilities

- Design, develop, test, and maintain in-house systems and mobile applications.
- Collaborate with cross-functional teams to identify, analyze, and resolve system issues.
- Optimize databases to ensure high performance, scalability, and reliability.
- Build and maintain APIs and system integrations to support business processes.
- Participate in system enhancement projects and deliver solutions aligned with user requirements.
- Prepare and maintain documentation, including code, process flows, and user guides.
- Support system deployment, debugging, and troubleshooting activities.

Key Requirements

- Diploma or Bachelor's Degree in Computer Science, Information Technology, or related field.
- 2–3 years of experience in software development or a related role.
- Strong analytical and problem-solving skills.
- Ability to work independently and collaboratively in a team environment.
- Good communication skills with strong attention to documentation and detail.

**Required Skills**

- Core Programming: PHP, HTML, JavaScript, CSS, SQL scripting, Perl, jQuery
- Additional Programming (Advantage): Dart, Java
- Database Management: MySQL, MariaDB, PHPMyAdmin
- Frameworks & Tools: Bootstrap, Android Studio (Flutter), GitHub (version control)
- Integration & Data Exchange: EDI, XML, API integration
- Nice to Have: Power BI, AWS

**Notice:** By submitting an application for this position, you acknowledge and consent to the disclosure of your personal information to the Privacy Policy and Terms and Conditions, for the purpose of recruitment and candidate evaluation.
