### Job Description

**Position: Project Manager (Communication Technology Group – CTG)**

Location: Japan Working Style: Hybrid (mainly remote work)

**Key Responsibilities:**

- Lead and manage system development projects by combining HCL and third-party products/services to meet customer requirements.
- Collaborate with domestic partners, overseas product teams, and internal divisions to deliver mission-critical services for major telecom carriers.

**Required Qualifications (Must):**

- 3+ years of project management or related experience in system development
- Requirement definition and client-facing skills
- Experience managing teams of 10+ members
- Knowledge of Linux/UNIX terminal operation, Shell
- Basic IT infrastructure and TCP/IP networking knowledge

**Flexibility in Requirements:**

- Candidates without prior Project Manager experience can also be considered, starting as Project Leads.
- Telecom/Media industry experience is not mandatory, as long as the candidate has strong interest and motivation.
- Candidates with Pre-sales experience may also be considered.
