### Job Description

#### COMPANY OVERVIEW

Our client is a trusted global provider of precision engineering solutions, widely recognized for its unwavering commitment to quality, accuracy, and technological advancement. With a strong emphasis on research-driven innovation and continuous enhancement, the organization plays a key role in supporting high-standards manufacturing, quality assurance, and metrology excellence across a broad spectrum of industries worldwide.

#### JOB RESPONSIBILITIES

- Provide on-site technical support including installation, troubleshooting, and maintenance of equipment such as Laser Processing Machines and PCB Drilling Machines.
- Deliver timely and high-quality technical assistance to customers.

- Maintain strong customer satisfaction by ensuring efficient resolution of service issues.
- Prepare service reports and complete required "Contact and Consult" documentation.
- Stay updated on emerging technologies and industry developments to enhance technical expertise.
- Offer proactive and flexible support aligned with organisational needs.
- Perform additional technical or engineering-related tasks as assigned by management.

#### JOB REQUIREMENTS

- Diploma in Mechanical Engineering, Electrical Engineering, or a related field.
- At least 3 years of experience as a service engineer, service technician, or in a similar maintenance/support role.
- Solid technical knowledge of mechanical and/or electronic systems and components.
- Familiarity with safety standards and protocols for operating machinery and equipment.
- Strong diagnostic and problem-solving skills with the ability to resolve issues effectively.
- Customer-centric with strong communication and interpersonal skills.
- Able to work independently and collaboratively within a team.
- Good interpersonal skills and capable of explaining technical concepts clearly and logically.
- Willing to work overtime or weekends when required.
