Job Description

Field Service Equipment Technician

Leading global MNC who provides a wide range of services, including fire, water, and storm damage restoration, mold remediation, reconstruction, and contents restoration looking for committed Field Service Equipment Technicians to join their pioneer team. You will carry out the systematic documentation, dismantling, precision cleaning, reassembly, and re-commissioning of technical equipment.

Job Responsibilities

- Be available during and after normal working hours to respond to emergency situations faced by clients and be prepared to travel to customer's premises and work in that location, as and when required
- Carry out recovery work following documented procedures and using accepted maintenance engineering principles.
- Document work carried out, utilizing time sheets, job cards, technical reports and any other documentation provided.
- Adhere to all company safety policies and procedures, and in particular use all safety equipment provided, and use chemicals and equipment in a safe manner.
- Follow out decontamination as per the instructions from the Project Manager.
- Participate in maintaining a clean and tidy workshop.
- For equipment decontamination: Carry out equipment service work. (if applicable)
- Dismantle and Re-assembly equipment as trained and instructed by the specialist.

Job Requirements

- Some prior relevant working experiences in the industrial/manufacturing environment handling machinery, equipment parts would be advantageous.
- Must be able to communicate and understand English and/or local commonly used language as part of the work requirement.
- Flexible to be on standby and short notice travelling withing Southeast Asia.
- Always have a safety consciousness mindset without compromise to safety.
- Willingness to participate and learn from others.
- Team player, always work as a team to accomplish tasks.
