Job Description

【求人No NJB2349968】

■Job Description:

VespelR parts are served in a wide range of industries including Transportation/Advanced Mobility Aerospace and Electronics globally and is a historic DuPont business with a very strong Japanese presence. As a strategically important market identifying growth opportunities and driving application development activities in DuPont's focused segments in Japan are critical activities for VespelR business growth.

We are currently looking for business development leader who could bring in new VespelR parts opportunities through building presence at the key electronics customers identifying compelling value propositions for VespelR parts and establish de facto standard material position in the key applications.

Vespel : <https://www.dupont.co.jp/vespel.html>

■Job Responsibilities / Activities:

1. Understand electronics market dynamics identify attractive and growing opportunities for VespelR in electronics segment and lay out right go to market strategy with deep analysis of value chains and customer decision making process.
2. Execute robust business development plan from new pipeline creation to commercialization in the electronics segment.
3. Lead engage and collaborate closely with cross functional regional/global teams including sales marketing product TS D supply chain operations etc. in the execution of new development projects.
4. Leverage business development activities in Japan to drive identification of extended opportunities in APAC region.

Report to: Japan Commercial Leader MOLYKOTER VespelR
