Job Description

Company Overview: One of the leading global real estate company headquartered in Tokyo.

Job Overview: Looking for quality managers having strong experience into QA and QC for construction sites.

Job Responsibilities:

- Propose and implement improvements to construction processes based on site observations and technical evaluations.
- Develop, plan, and implement design standards and quality control systems to enhance overall business performance, including businesses invested in by the Company.
- Conduct technical surveys, assessments, and studies to evaluate design quality, construction standards, and operational compliance across business units.
- Lead and coordinate quality control initiatives for facility management, providing technical guidance and

recommendations to ensure consistent standards and best practices.

- Formulate, coordinate, and oversee the implementation of environmental policies, sustainability initiatives, and compliance programs across the Company's business operations and investments.
- Collaborate with internal teams, consultants, contractors, and external stakeholders to ensure quality, safety, and environmental requirements are met throughout project lifecycles.
- Monitor, review, and continuously improve quality management processes, prepare reports, and recommend corrective and preventive actions where necessary

Job Requirements:

- Must have a bachelor's degree with at least 2+ years on-site experience as construction manager level from any contractor, real estate developer or consultant company.
- Experience in dealing with site issues, progress control, and coordination with contractors
- Able to read and understand construction drawings and technical specifications
- Business-level proficiency in English (verbal and written)
- Experience in client-side supervision or developer-side roles
- Proficient in AutoCAD and Microsoft Office applications; experience with additional design or project management tools is an added advantage.
- Proficiency in Microsoft Office (Word, Excel, Power Point)
