Job Description

Position & Department: Technical Superintendent

Location- Mumbai

Qualification- Diploma or B Tech (Mechanical or Electrical)

Job description-

- Promote and adhere to the company's HSEQ policies.
- Manage day-to-day technical operation and performance of assigned vessels to ensure that applicable requirements to safety, quality, efficiency, and environmental performance are met.
- Monitor and evaluate the maintenance standard on board, including reporting and execution of breakdown/defect maintenance.
- Management of incidents and accidents, including root cause analysis and preventive measures.

- Marine casualty management as per IMS.
- Develop, monitor and control running cost budgets to meet goals and KPI's.
- Monitor and ensure compliance with statutory, Class and other third-party requirements.
- Supervise and report repairs and modifications, including insurance repairs.
- Manage all phases of the dry-docking process from initial planning to completion.
- Arrangement of spares, stores, lubricants, paints etc. for vessels.
- Ensure that all activities, also by third parties engaged, comply with set HSEQ standards.
- Visit assigned vessels regularly and submit relevant reports.
- Co-ordination of activities between vessels and office.
- Appraisal of crew on board for the vessel in charge.

Job Requirement

- Candidate must hold Chief Engineer's Certificate of Competency.
- Sailing experience of 2 years or more at management level (preferably Chief Engineer) on board ship.
- Sailing experience of at least 2 years on LNG vessels. OR minimum 2 years of superintendent experience handling LNG vessels.
- Good understanding of Dual Fuel Engines, LNG Cargo containment and handling system.
- Good communication and inter-personal skills, with cultural awareness.
- Good analytical skills/assessment ability.
- Leadership skills.
- Have a holistic perspective, without losing attention to details.
