Job Description

A Global Life Insurance Japan is looking for a talented **Product Owner**, in the Business Application Platforms Solution Delivery team, to lead the execution of new product projects, which are the company's top strategic initiatives.

Responsibilities:

- Project management for insurance product initiatives based on OTOBOSOQ
- Ensure delivery on schedule, within budget, meeting specified requirements, and with reliable quality
- Experience managing complex projects, including planning, implementation, governance, and especially risk management
- Manage, lead, and support communication among stakeholders (internal and external) to ensure service quality and efficiency for specific activities
- Demonstrate strong leadership across the company to create synergy and smooth communication with all teams

Why should you apply:

- This is a long-term opportunity
- You will be working with international team members
- Learn new technologies and on large scale projects

Company Details: A leading international insurance organization operates in over 130 countries and jurisdictions, offering services to commercial, institutional, and individual clients through one of the most extensive global property and casualty insurance networks. In addition to general insurance, the organization is also a prominent provider of life insurance and retirement services in the United States. Its common stock is publicly traded on both the New York and Tokyo stock exchange. The group's Japan-based affiliate provides IT-related services to support the organization's operations within the country.

Working Hours: 9:00 - 17:30 (Mon-Fri)

Working Style: Hybrid (4 days in office, 1 day work from home)

Holidays: Saturday, Sunday, National Holidays, Year-end and New Year Holidays, 27 Paid Holidays every year (20 paid leaves, and 7 especial leaves)

Services/Benefits: Social insurance, Employee Pension Scheme, Transportation Fee

Interview Process: 3

Required Skills

Required Skills:

- General understanding of insurance services in Japan
- Experience delivering IT applications from initiation to release
- Experience managing large strategic projects with top management stakeholders
- General IT knowledge and experience in medium to large enterprises (applications, infrastructure [network, server, middleware, workplace, cloud], service operations)
- Analytical Management capability and extensive knowledge of life insurance products
- Understanding of the automobile insurance business domain
