Job Description

Responsibilities :

1. Support day-to-day information security operations and controls
2. Monitor security alerts and escalate issues when needed
3. Assist with investigating and responding to security incidents
4. Help manage vulnerabilities and track remediation actions
5. Maintain security documentation and basic reports
6. Work with internal teams to support secure systems and services
7. Contribute to security awareness and training activities

8. Perform other securityrelated tasks as required

Required Skills

Qualifications :

(Required)

1. 1–4 years of relevant experience in information security, IT operations, risk management, or a related technical role, or equivalent practical experience
2. Bachelor's degree in computer science, information security, information systems, or a related field, or equivalent experience
3. Basic to practical understanding of information security concepts, such as security monitoring, access control, vulnerability management, or incident response
4. Business-level English communication skills, with the ability to work effectively in an international environment
5. Willingness to learn, follow established processes, and work collaboratively as part of a team

(Preferred)

1. Exposure to common security tools and concepts
 2. Security certifications or training are a plus
 3. Japanese language skills are an advantage
 4. Experience in an international environment
