Job Description

◀Job Description and Benefits of This Position▶

- 韓国での風力発電所建設工事を統括し、土木・送電線施工や安全管理まで一貫して担当
Overseeing the construction of wind power plants in South Korea, handling everything from civil engineering and transmission line construction to safety management.
- ゼロから再生可能エネルギー事業を構築し、社会課題解決に貢献できるやりがい

Building renewable energy businesses from scratch and contributing to solving societal challenges—a rewarding endeavor.

- 外部サブコントラクターや設計チームと連携し、プロジェクト管理や新技術導入に挑戦可能
Collaborate with external subcontractors and design teams to take on challenges in project management and new technology implementation.

【Responsibilities】

Assignments will include, but not limited to:

- Responsible for the construction of wind farm construction works in Korea.
- Manage civil construction and transmission line construction works.
- Lead external subcontractors to prepare basic project plans, specifications, selection of subcontractors, review of estimates/design/construction plans, and project management.
- Lead the SPC design team and the Engineering company, and instruct the EPC to follow up on the detailed design and formulate and execute the construction plan.
- Research for evaluation and selection of design and procurement contractors.
- Developing new subcontractors and new technologies.
- Site safety management.

■Attract :

Attractions include but not limited to:

- We are able to contribute to solving social issues by building a renewable energy business from scratch, which will be needed more and more in the future.
- By working together with our passionate colleagues, we will be able to grow and develop ourselves.

【Employment Type】

Contract Employee

※February 2026 to August 2028 (subject to extension based on project duration)

※May be converted to permanent employment depending on performance

【Salary】

Negotiable based on experience

【Working Hours】

8 hours per day (typically 9:00 AM to 6:00 PM) with a flexible working hours system

Average overtime: Approximately 20 hours

【Work Location】

Seoul -> Yeongcheon

【Holidays and Leave】

Based on the local Philippine calendar.

December 25–31 is the year-end and New Year holiday period.

【Employee Benefits & Allowances】

- Meal Allowance
- Vaccination Assistance
- Health Checkup Assistance

Required Skills
