Job Description

Role and Job Description:

You will be involved in the position of project manager (PM) for Salesforce projects. Specifically, you will be responsible for upstream design and general project management, including system proposals, business analysis, requirement definition, customer negotiations, and team communication for customers regardless of field. We will work with members in a global ONE TEAM to advance development.

Required Skills

Skills Required

• Those who have experience in Salesforce development and want to become PMs in the future

• Those who hold Salesforce certification

※Depending on your abilities, you may be asked to participate as a SE (potential PM).

Company Description
