Job Description

• Lead general project management for infrastructure and cloud projects.

• Gather, organize, and analyze customer requirements; propose solutions and improvements.

• Collaborate with technical teams in Japan and overseas to ensure successful project execution.

• Plan, schedule, and manage projects, including milestones, resource allocation, and risk management.

• Regular reporting, coordination, and negotiation with customers and stakeholders.

• Promote team collaboration and communication in a multinational environment.

• Mentor junior project managers and contribute to improving organizational capabilities.

Required Skills

Required:

• 3+ years of project management or leadership experience.

• 3+ years of experience in PowerPoint and preparing presentation/explanatory materials.

• Experience participating in IT infrastructure or cloud projects.

• Ability to understand client requirements and promote projects while coordinating stakeholders.

Company Description
