Job Description

- Lead general project management for infrastructure and cloud projects.
- Gather, organize, and analyze customer requirements; propose solutions and improvements.
- Collaborate with technical teams in Japan and overseas to ensure successful project execution.
- Plan, schedule, and manage projects, including milestones, resource allocation, and risk management.
- Regular reporting, coordination, and negotiation with customers and stakeholders.
- Promote team collaboration and communication in a multinational environment.
- Mentor junior project managers and contribute to improving organizational capabilities.

Required Skills

Required:

- 3+ years of project management or leadership experience.
- 3+ years of experience in PowerPoint and preparing presentation/explanatory materials.
- Experience participating in IT infrastructure or cloud projects.
- Ability to understand client requirements and promote projects while coordinating stakeholders.
