Job Description

Join a high impact data analytics and platform team inside a global technology organization that reaches millions of users every day across e-commerce, fintech, telecommunications, media, and more. Working with massive real world marketplace data, you will help design large scale data platforms, build advanced analytics and AI solutions, and tackle challenges like fraud detection that directly affect customers and business growth. Your work will sit at the center of decision making, turning data into smarter strategies, better products, and real results seen by people around the world.

- Analyzing users' requirements and providing system solutions
- Designing, coding, and implementing Salesforce applications and related tools
- Testing the stability and functionality of the application
- Troubleshooting and fixing bugs
- Maintaining the security and integrity of the application software

Required Skills

- Extensive experience in Salesforce platform development and implementation (3+ years)
- Deep expertise and practical experience in Apex development
- Experience in designing and developing integrations between Salesforce and external systems
- Profound knowledge and practical experience in Salesforce system operation and maintenance
- Strong analytical skills and experience defining requirements to solve business problems
- Excellent technical design skills and solution proposal capabilities
- Strong communication skills that energize the team, with an open-minded and collaborative spirit
- Languages: Japanese and English (business level)

Desired Qualifications:

- Experience as an Engineering Lead or in Project Management
- Experience in modern backend development (especially Java, Spring Framework)
- Frontend UI development experience (HTML, CSS, JavaScript)
- Development and operations experience in Unix/Linux environments, including shell scripting
- Practical experience with Agile development methodologies (Scrum, Kanban, etc.)
- Strong sense of ownership and ability to work autonomously

Company Description
