Job Description

COMPANY OVERVIEW

A global consulting firm specializing in business transformation and digital innovation. It helps organizations improve performance through strategy, process optimization, and technology solutions.

This is a 12-month agency contract role (renewable).

JOB RESPONSIBILITIES

- Support the Project Manager by coordinating tasks and tracking progress across the different streams.
- Prepare key user documents such as migration materials, UAT plans/results, BCP documentation, and other required artefacts.
- Maintain project timelines, schedules, dashboards, and status summaries.

- Oversee business-user activities, ensuring deliverables are completed and documented according to project controls.
- Monitor deadlines and dependencies, escalating risks or delays when needed.
- Ensure all work follows required governance, compliance rules, and documentation standards.
- Support change requests, maintain risk/issue logs, and capture lessons learned.
- Consolidate regular updates for internal teams and client management.
- Update business procedures to reflect new system features and operational adjustments.
- Facilitate communication and coordination between business teams, IT, and other stakeholders.

JOB REQUIREMENTS

- Bachelor's degree in a relevant field.
- Experience in PMO or business support roles with solid UAT planning, execution, and reporting experience.
- Strong documentation ability using PowerPoint, Excel, and Word.
- Basic understanding of how system implementation lifecycles work.
- Strong stakeholder coordination and communication skills.
- Exposure to banking operations, consulting work, system rollout projects, reconciliation processes, or team-coordination responsibilities.
- Japanese language proficiency (written and spoken) to communicate effectively with Japan-based clients and stakeholders is good to have.
- Experience with reconciliation tools is good to have.
