Job Description

Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Senior Electrical / Electrical Engineer, to join their team and contribute to their ongoing success.

Key Responsibilities

- Supervise and coordinate all electrical works for projects within operational building environments, ensuring smooth execution.
- Review and meticulously analyse electrical drawings, technical submissions, method statements, and equipment specifications.
- Coordinate effectively with consultants, contractors, and other trades (including MEP) to resolve technical changes and ensure seamless site execution.
- Oversee the full lifecycle of electrical and ELV systems, including installation, comprehensive testing, and commissioning activities.

- Ensure strict compliance with all relevant Singapore codes, safety regulations, and specific project requirements.
- Attend all necessary site meetings and inspections and provide robust support for project handover documentation.
- Monitor project progress, workmanship quality, and adherence to safety standards for all electrical works.
- Provide technical guidance and mentorship to junior engineers and site staff as needed.

Key Requirements

- Diploma or Degree in Electrical Engineering or a relevant qualification.
- Minimum 3 years of relevant experience, preferably within commercial and industrial buildings.
- Strong knowledge of Singapore's electrical standards, WSH requirements, and relevant local authority submission processes.
- Proficiency in interpreting electrical drawings and specifications.
- Excellent coordination and communication skills.
- Familiarity with BMS integration and coordination with other M&E systems is highly advantageous.
- Possession of relevant certifications (e.g., LEW) will be a significant asset.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
