Job Description

Company Overview

Our client a leading engineering company with a significant global presence. They specialize in a broad range of electrical, mechanical, and telecommunications engineering services for various sectors, including building, industrial, and infrastructure projects. As they continue to drive growth and expansion, they are now seeking a Senior Electrical Engineer (Quality Control), to join their team and contribute to their ongoing success.

Key Responsibilities

- Implement and rigorously manage comprehensive quality control procedures for all electrical works on project sites.
- Conduct thorough inspections, audits, and testing of electrical installations, equipment, and materials to ensure compliance.
- Review and verify electrical shop drawings, material submissions, and method statements for strict adherence to specifications and standards.
- Monitor workmanship meticulously, guaranteeing alignment with project specifications and the highest quality standards.
- Prepare detailed non-conformance reports (NCRs), track corrective actions diligently, and ensure their timely closure.

- Act as a key liaison with consultants, clients, and subcontractors to effectively resolve all quality-related issues.
- Maintain meticulous quality documentation, inspection records, and test reports for audit readiness and project traceability.
- Support project handover and commissioning processes by ensuring all electrical quality requirements are met and verified.

Key Requirements

- Degree or Diploma in Electrical Engineering or a related discipline.
- Minimum 6–8 years of experience specifically in quality control for electrical works within large-scale construction projects.
- Possess strong knowledge of LV/MV electrical systems, industry standards, and robust QA/QC practices.
- Familiarity with relevant codes, regulations, and authority requirements applicable in Singapore.
- Highly detail-oriented with strong analytical and problem-solving skills.
- Demonstrates effective communication and coordination skills, capable of engaging with multiple stakeholders.
- Experience in industrial or large infrastructure projects is a distinct advantage.
- Willingness to work at our Tuas project site; transportation pick-up available from designated MRT stations.

Apply online or feel free to contact me directly for more information about this opportunity. Due to the high volume of applicants, we regret to inform that only shortlisted candidates will be notified. Thank you for your understanding.
