Job Description

Job Description

- Support the Project Manager in overseeing all electrical-related design, coordination, installation, testing, and handover activities across project lifecycle.

Key Responsibilities

- Coordinate electrical design reviews and resolve electrical issues.
- Work closely with subcontractors and consultants on electrical matters.
- Monitor electrical installation progress and quality.
- Assist in testing, commissioning, and documentation.
- Ensure compliance with authority requirements for electrical systems.
- Implement internal processes and maintain technical documentation.

Requirements

- Degree/Diploma in Electrical Engineering.
- 6 to 9 years of working experience in data center, factory and warehouse projects
- Strong understanding of LV/MV systems and ELV.
- Experience in M&E coordination is preferred.
