Job Description

Required Skills :

- More than 10 years of experience in procurement (materials sourcing) within the manufacturing industry
- Practical experience and knowledge of logistics operations and related regulations for the manufacturing sector in India
- Hands-on experience in international logistics, including import and export operations

Preferred Skill:

- Experience in international logistics operations within a Japanese company
- Japanese language proficiency sufficient for smooth communication with the Japan headquarters (equivalent to JLPT N3)
- Experience participating in or leading factory start-up projects, or large-scale organizational restructuring logistics projects
- Experience and knowledge related to handling export/import audits in India
- Experience implementing advanced logistics technologies or logistics systems, as well as experience in process improvement
