Job Description

Location

Hanoi, Vietnam

Company and Job Overview
A global IT services provider delivering enterprise-level infrastructure and network solutions to international clients.

Job Responsibilities

- Take a lead role in planning, architecting, and implementing enterprise IT infrastructure covering network, server, virtualization, and security domains.
- Drive end-to-end delivery of infrastructure projects, ensuring technical quality, stability, and alignment with client expectations.
- Act as the main technical authority for complex system integration involving networking, security appliances, and server platforms.
- Support solution proposal and pre-sales activities, including technical assessment, solution recommendation, and client-facing presentations.
- Work closely with customers and internal stakeholders to translate business needs into scalable and secure infrastructure designs.
- Guide, mentor, and technically support team members while handling escalation issues when required.
- Oversee preparation and review of technical documentation such as architecture designs, implementation plans, testing records, and operational guidelines.
- Coordinate with vendors and partners to ensure smooth deployment and post-implementation support.

Job Requirements

- At least 7 years of experience in IT infrastructure with strong exposure to enterprise network and server environments.
- Proven background in designing and deploying office or enterprise IT systems combining networking, security, and server technologies.
- Hands-on experience with major infrastructure platforms (network devices, firewalls, virtualization, Windows/Linux systems).
- Prior experience in a senior engineer or technical leadership role is highly preferred.
- Strong communication and presentation skills with the ability to work directly with customers.
- Ability to lead technical discussions, manage priorities, and work effectively in a multi-project environment.
- Relevant technical certifications are an advantage but not mandatory.
- Fluent English or Japanese (business-level communication for meetings, presentations, and documentation).

Benefits

- Attractive salary and comprehensive benefits package.
- Performance-based bonus and annual salary review.
- Health insurance and regular medical check-up.
- Professional, international working environment with long-term career development opportunities.
- Standard working hours from Monday to Friday.
- Company events, team activities, and annual trips.
