Job Description

This role offers the opportunity to design and build a new iOS application that will serve as a core interface for an innovative generative AI platform. You will play a key role in shaping architecture, user experience, and quality standards within a fast-evolving AI engineering group.

Client Details

A leading global internet services organisation with a dedicated AI division developing advanced applications to enhance digital products and services. The team operates as an agile, innovation-focused unit within a large-scale technology environment.

Description

- Design and develop high-quality iOS applications using Swift
- Improve overall UI/UX for better usability and performance
- Drive quality improvements across development processes
- Support application operations, maintenance, testing, and feature enhancements
- Contribute to an agile environment using Scrum or Kanban methodologies

Job Offer

- Opportunity to build a brand-new AI-driven mobile product from scratch
- Work in an international, English-speaking engineering culture
- Grow with a team focused on cutting-edge AI application development
- Exposure to modern development tools, frameworks, and architectures

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serena Wu on +81 3 6627 6137.

Required Skills

Must-have skills:

- 3+ years of native iOS development using Swift
- Understanding of modern mobile architecture patterns (MVP, MVVM)
- Familiarity with frameworks such as SwiftUI
- Hands-on experience setting up and maintaining CI/CD pipelines
- Experience working in agile development environments
- Strong sense of ownership and proactive team collaboration

Nice to have:

- Development experience with Node.js or modern JavaScript frameworks (React, Angular)
- Knowledge of performance tuning for mobile apps
- Experience collaborating with distributed/remote teams
- Strong communication and teamwork mindset

Language requirements:

- Fluent English
 - No Japanese required
-
