Job Description

COMPANY OVERVIEW

Our client is a Singapore-incorporated subsidiary of a multinational company in the Life Sciences industry, supporting global research and development efforts through advanced scientific platforms and collaboration.

JOB RESPONSIBILITIES

- Support the operation, maintenance, and improvement of IT infrastructure and systems.
- Provide day-to-day IT operations support, including desktop and end-user support.
- Assist with technology upgrades, system enhancements, and tech refresh initiatives.
- Maintain core IT services, including network infrastructure, servers, backup systems, and end-user hardware/software.

- Manage IT hardware assets and software license inventory.
- Install, configure, and support workstations, applications, printers, phones, and peripherals, troubleshooting issues as needed.
- Execute system updates and improvements to ensure a stable and efficient IT environment.
- Assist in developing and maintaining IT policies, procedures, and standards.
- Support IT initiatives that enable operational efficiency and organizational growth.

JOB REQUIREMENTS

- Diploma or bachelor's degree in information systems, Computer Science, or a related field.
- At least 4 years of hands-on experience in IT infrastructure and operations.
- Relevant certifications in cybersecurity, systems administration, or basic scripting / programming are good to have.
- Proficiency in administering operating systems, servers, phone systems, wireless networks, and enterprise applications (e.g. Windows OS, Microsoft Office).
- Familiarity with enterprise backup and recovery processes and current IT technologies.
- Experience supporting video conferencing systems, mobile devices, and Linux environments is good to have.
- Basic knowledge of databases, cybersecurity, and cloud technologies is beneficial.
