## Job Description

### Company Overview

A company in the IT services industry is hiring for a Project Leader/BrSE position.

### Job Description

- Lead and manage implementation projects of varying size and complexity, ensuring alignment with business objectives and client expectations
- Oversee project teams by assigning tasks, tracking progress, and maintaining high standards of quality throughout the delivery lifecycle
- Develop project plans, estimate workload, and ensure delivery within defined scope, budget, and timelines
- Monitor project performance through accurate reporting, including risk management, change control, and financial oversight

- Support the growth and development of team members through coaching, training, and career planning
- Ensure successful project execution across quality, cost, and schedule requirements
- Maintain clear and effective communication with internal stakeholders and external Japanese clients, fostering strong working relationships
- Handle additional responsibilities as assigned by senior leadership

#### Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field  
More than 5 years of experience in software development, including at least 2 years in project management for the Japanese market
- Strong capabilities in project estimation, quality assurance, resource planning, and risk management
- Familiarity with project management methodologies such as Waterfall and Agile/Scrum
- Experience in developing and deploying web-based applications using Java Spring Framework or C# ASP.NET is advantageous, particularly in domains such as insurance or healthcare solutions
- Possession of PMP or ACP certification is preferred, along with willingness to travel internationally
- Proficiency in Japanese at JLPT N2 level or higher
- Strong leadership, problem-solving, and team management abilities
- Ability to communicate and negotiate effectively with Japanese clients
- Strong presentation skills and the ability to build and maintain client relationships
