Job Description

Our client specializes in Electrical Construction business

Position: Sales Engineer (solar panels)
Salary: 30,000 – 40,000THB +/- (Negotiable)
Location: Bangkok and Onsite

Key Responsibilities of the position:

- Provide technical explanations and consultations to clients during the pre-contract phase, including system design, performance expectations, and installation feasibility.
- Prepare and present technical proposals, drawings, and layout plans for rooftop solar installations.
- Collaborate with the sales team to develop customized solar solutions for Japanese manufacturing clients in Thailand.

- Coordinate with external contractors for construction and installation management, ensuring quality and safety standards are met.
- Oversee project timelines and deliverables, acting as the technical point of contact throughout the project lifecycle.
- Support post-installation maintenance and troubleshooting, ensuring long-term system performance and client satisfaction.
- Maintain documentation and reports related to system design, installation, and service records.

Qualifications required:

- Bachelor's degree in Electrical Engineering, Renewable Energy or any related field.
- Minimum 1 year of experience in solar PV system design, installation or technical sales.
- Excellent sales skills with strong communication and negotiation skills.
- Ability to work on site.

Benefits:

- Transportation fee
- Health Insurance
- Bonus
- Other leaves as per Thai law
