Job Description

About the Company

Your opportunity to join a cutting-edge, AI-native company in Tokyo!

This is a unique chance to delve into the AI field and make a real impact. We are actively seeking a talented Frontend Engineer to deliver the best UI/UX utilizing homegrown AI to help the users in the construction industry get their jobs done

much faster with better quality.

Who are you

- An experienced Frontend infrastructure designer, implementer, and operator.
- You will be excited to work on massive and global projects.
- Passionate about the AI industry and dedicated to leveraging technology for real-world impact.

Why you should apply

- Unique AI Native Product
 - Frontier Tech & Untapped Industry Potential
 - Diverse Team
 - Hybrid working Style
-

Required Skills

Requirements

- 5+ years in software development in a fast-paced tech environment.
 - 4+ years of experience building frontend in product settings.
 - You're comfortable with TypeScript and frontend frameworks such as Vite.js, Next.js (strong requirement).
 - You can make hypothesis about users needs and quickly validate upon fast prototyping before making final decisions
 - Strong teamwork via collaboration, documentation and public communication
 - Ability to optimize app performance is a big plus given that our product includes handling a large number of objects and their interactions with users on canvas
 - Japanese: JLPT N3+ (Able to communicate internally)
-
