Job Description

Company: Retail Company

Position: IT Integration specialist (ERP & Retail & E-Commerce)

Location: London (Hybrid)

Salary: 55,000 – 65,000 GBP

Job responsibilities:

Digital, Retail & ERP Integrations

- Design and operate integrations across ERP, POS, WMS, e-commerce, marketplace and logistics platforms.
- Ensure secure, real-time and batch data flows supporting product, inventory, orders, fulfilment, customer and finance processes.
- Maintain integration reliability across all sales channels with strong alerting, monitoring, and recovery routines.

E-Commerce, Marketplace & POS

- Maintain ERP ↔ Adobe/Magento integrations (catalogue, stock, orders, cancellations, returns).
- Manage ERP ↔ Tradebyte marketplace connections (Zalando, ASOS, AboutYou).
- Ensure Cegid POS transactions (WPUUMS), returns and stock adjustments post accurately across systems.
- Support unified pricing, availability and product information across channels.

Warehouse, Logistics & 3PL

- Maintain inbound/outbound flows with CEVA/WMS (ASN, HU, picking/packing, stock updates).
- Support carrier integrations for labelling, shipment tracking and delivery confirmations.
- Troubleshoot inventory mismatches, HU issues and fulfilment delays.

Omni-Channel Integration Enablement

- Ensure seamless enablement of:
 - Click & Collect
 - Ship from Store
 - Endless Aisle
 - Return Anywhere
- Maintain unified stock visibility across ERP, POS, WMS and e-commerce

IDocs, APIs & SAP CPI / Integration Suite

CPI / iFlow Development

- Build and maintain iFlows including routing, mapping, exception handling, sequential processing and data transformation.
- Develop Groovy scripts for:
 - JSON/XML conversion
 - OAuth2 token flows & HMAC signatures
 - Dynamic routing & pagination
 - Error-handling payloads & structured exceptions
 - Header/property manipulation & enrichment

CPI Integration Policies

- Enforce secure integration policies: encryption, keystore management, mTLS, OAuth2, API keys, PII masking.
- Apply resilience standards: retries, idempotency, throttling, duplicate-check logic.

- Maintain clean logging, audit traceability and iFlow version control.

IDoc / EDI

- Monitor and resolve key IDoc types (ORDERS, DESADV, INVRPT, MBGMCR, INVOIC, WPUUMS).
- Maintain partner profiles, message control, ALE setups and sequencing logic.

Cybersecurity & Compliance

- Perform integration-focused penetration tests and vulnerability checks.
- Validate interfaces against OWASP/industry standards.
- Ensure GDPR, data privacy and audit compliance across all interfaces.
- Work closely with security teams to assess risk, harden endpoints and validate platform security posture.

Documentation, Testing & Continuous Improvement

- Produce technical documentation (BPMN flows, mappings, SOPs).
- Support SIT/UAT, cutover planning and regression cycles.
- Drive simplification, automation, and stability improvements across all integrations.

Experience

- 10+ years in enterprise integrations across ERP, retail, e-commerce, and WMS.
- Strong exposure to multi-country European operations (pricing, VAT, currency).
- Hands-on experience with POS, marketplace, carrier and warehouse integrations.
- Prior work in fashion retail, DTC or consumer brands preferred.

Technical Skills

Core Skills (Must Have)

- Strong CPI/iFlow development with advanced Groovy scripting.
- Expertise in REST/SOAP APIs, JSON/XML, IDoc/EDI, batch/event-driven flows.
- Strong ERP ↔ POS ↔ WMS ↔ E-commerce integration knowledge.
- Ability to resolve order, fulfilment and stock integration issues.
- Proven experience designing secure, compliant integration flows.

Essential Skills

- Integration architecture design, mapping, transformation and documentation.
- Understanding of omni-channel order flows & dependencies.
- Experience with European retail localisation (VAT, pricing, currency).
- Strong debugging ability for CPI, SFTP, APIs and IDocs.

Nice-to-Have Skills

- CPI/Integration Suite certification(s).
- Experience with Tradebyte, Cegid POS, CEVA WMS, carrier APIs.
- Exposure to event-driven or microservices architecture.
- Experience with Jira, Confluence, Solution Manager or Signavio.

We regret to inform applicants that only shortlisted candidates will be notified.

Thank you for understanding.
