Job Description

COMPANY OVERVIEW

Our client (Electronics manufacturing) is looking for the QA Engineer position.

Work Location: Long Duc – Dong Nai.

JOB RESPONSIBILITIES

- Develop and implement quality control plans to ensure product and process compliance.
- Establish, maintain, and continuously improve the Quality Management System (QMS).
- Create, update, and manage factory rules, procedures, and regulations to align with company and industry requirements.
- Manage and analyze quality data for reporting, improvement, and decision-making.

- Conduct and coordinate internal and external quality audits.
- Lead activities related to quality certifications, including acquisition, renewal, and compliance with relevant standards.

JOB REQUIREMENTS

- Over 3 years of practical experience in the Quality Assurance department at an electronic device manufacturing plant (including establishing quality management systems, handling internal and external quality audits, and resolving quality issues).
- Work experience at a Japanese manufacturing company is preferred.
- Practical experience in handling external audits by certification bodies (e.g., safety standards, wireless certifications)
- Practical experience in external audits for ISO 9001 / ISO 14000
- Practical experience in ISO 9001 internal audits.
- Hands-on experience in electrical circuit.

BENEFITS

- Working hours: Monday to Friday (every other Saturday) from 8am to 5pm.
- Transportation provided from Ho Chi Minh City, Binh Duong, Dong Nai, and Ba Ria - Vung Tau.
- Interview Round: 1 round
