Job Description

Join a dynamic global team where you'll help turn ambitious ideas into real-world impact. Work alongside skilled professionals across different regions to support clients in reimagining how they use technology to drive growth, foster innovation, and build a more sustainable future. From shaping strategy to developing advanced solutions in AI, cloud, and data, you'll play a key role in delivering meaningful outcomes that benefit businesses, communities, and your own professional journey.

Key Responsibilities:

- Lead full lifecycle delivery of Guidewire ClaimCenter projects, ensuring outcomes align with client objectives and business priorities.
- Offer technical leadership and strategic direction to development teams, promoting best practices in architecture, design, and implementation.
- Partner with Japanese-speaking stakeholders to gather requirements, facilitate communication, and ensure smooth project execution.
- Manage team capacity, support performance development, and guide resource planning efforts.

- Maintain adherence to quality standards, security policies, and regulatory guidelines.
 - Encourage innovation and continuous enhancement across Guidewire solutions.
 - Oversee project risks, budgets, and timelines while managing multiple initiatives simultaneously.
-

Required Skills

Technical Expertise:

- Extensive experience with Guidewire ClaimCenter platform.
- Proficiency in Gosu, Java, and integration frameworks.
- Strong understanding of insurance claims lifecycle and business processes.

Language Skills:

- Japanese language proficiency at JLPT N3 / N2 level is a must have.
- Experience working in bilingual or multicultural environment.

Preferred Qualifications:

- Guidewire certifications (ClaimCenter) are highly desirable.
 - PMP or Agile certifications are a plus
-
