Job Description

Expert Cameras and Opticals - Japan

Every day brings the extraordinary! Whether it's Daniel Ricciardo's Formula 1 Car, a Woolly Mammoth's Skeleton, Lady Gaga's Jumpsuit or Usain Bolt's running shoe, we encounter exceptional objects every day.

We're a one-of-a-kind marketplace for buying and selling special objects. Each week, more than 110,000 unique items are auctioned, all carefully curated by our passionate in-house experts.

Having sold over 25 million unique objects, our mission is to become the world's most popular destination for special objects. As a growing, diverse and sustainable scale-up, we proudly live by three core values. If these values resonate with you, we'd love to explore how you can join us.

- Taking ownership and driving impact
- Being open to change and feedback
- Being passionate about our mission and our customers.

Your Mission

As a Cameras Expert, you will manage and grow our Cameras auctions with a focus on the Asian market, particularly Japan. You use your technical expertise and commercial insight to curate high-quality auctions, onboard professional sellers, and ensure a transparent and reliable marketplace for buyers and sellers.

You act as the category specialist, selecting relevant lots, guiding sellers on performance, and strengthening our supply from dealers and collectors looking to expand their reach to Europe.

What You'll Do

- Evaluate and curate submitted camera lots, ensuring accuracy, authenticity, and commercial appeal
- Create attractive weekly auction selections aligned with collector demand and market trends
- Review titles, descriptions, images, and documentation, and provide accurate value estimates
- Guide sellers on pricing, reserve strategies, and performance optimisation to improve sell-through and cash flow
- Onboard and develop professional dealers and collectors in Japan and the wider Asian market
- Monitor auction results and use data insights to improve lot quality, selection, and overall category performance
- Act as a mediator in disputes, ensuring professional and fair communication between users

Where You'll Be

This is a 100% remote role based in Japan, with daily collaboration with teams in Japan and across Europe.
