Job Description

A renowned motor vehicle manufacturing company is looking for a Quality Engineer. The selected candidate will manage customer quality relations, oversee project quality requirements, and ensure compliance with global standards.

Headquartered in Europe, this automotive business serves customers across multiple countries and remains a global leader in the production of various automotive components. Buoyed by its global network of experts, engineering specialists, and R&D support, the company continues to evolve and strengthen its global position.

Job Ref: C77JS7

Responsibilities:

- Act as primary quality liaison for Japan customers, ensuring clear communication and alignment
- Support customer projects and manage PPAP timelines, approvals, and quality requirements
- Monitor customer claims, coordinate sorting, and lead warranty analysis and reporting
- Coordinate with internal teams and global sites to resolve issues and escalate when needed
- Maintain quality systems, support audits, and ensure compliance with standards
- Deliver quality training and drive continuous improvement initiatives

Requirements:

- Bachelor's degree or above in engineering or related field
- More than 5 years of quality experience in an automotive manufacturing environment
- Experience working directly with customers on quality topics
- Prior experience in manufacturing process control and continuous improvement
- Proven experience with quality software and documentation systems
- Understanding of IATF 16949 and automotive quality systems
- Skilled in AIAG Core Tools (APQP, PPAP, FMEA, MSA, SPC)
- Proficient in 8D problem solving and 5Why analysis
- Ability and willingness to travel
- Native level Japanese; proficient in English

Company Description

We've been a driving force in the Japanese bilingual recruitment market, providing high quality candidates for our clients and access to the best jobs for over 20 years. We operate a team-based profit share system which, we believe, sets us apart from the majority of competitors by enabling us to always put the interests of our clients and candidates first. That means we can find the best fit for employer and job seeker, and we never push people into unsuitable roles.
