Job Description

A leading global internet & technology company is looking for a **Cloud Security Engineer / Analyst** to join its cloud security

governance team in Tokyo.

This role focuses on strengthening cloud security controls, governance, compliance, and risk management within a large-scale enterprise cloud environment.

Responsibilities:

- Support and improve cloud security governance frameworks
- Conduct security assessments, control reviews, and remediation tracking
- Manage security monitoring and vulnerability management processes
- Operate and maintain Wazuh security monitoring environment
- Collaborate with security, engineering, and compliance stakeholders

Japanese level: Not Mandatory but nice to have

English level: Business Level (TOEIC 800+)

Company details:

A Tokyo-based Japanese tech conglomerate focused on e-commerce, fintech, mobile telecom, and digital services, known for its ecosystem strategy and cross-service loyalty points program.

Salary: 3,700 ~ 4,000 JPY per hour (Approx. 555,000 ~ 600,000 JPY per month + OT)

Working Hours: 9:00 - 17:30 (Mon-Fri)

Work Location: Tokyo (Nearest station: Futako-Tamagawa)

Working Style: Hybrid (4 days in office, 1 day work from home)

Holidays: Saturday, Sunday, National Holidays, Year-end and New Year Holidays, Paid Holidays, Other Special Holidays

Services/Benefits: Social insurance, DC Pension Plan, Transportation Fee, Skillhouse University, Test payback system, and more

Required Skills

Mandatory Qualifications:

- 2~3 years of experience in cloud security, information security governance, risk and compliance, IT security controls, or security assurance
- Familiarity with cloud security frameworks and standards (e.g., CIS Benchmarks, NIST, ISO 27001/27017, CSA CCM)
- Experience with cloud security tools (e.g., Wazuh, Tenable vulnerability scanning, monitoring solutions)
- Understanding of tenant isolation and multi-tenancy security controls in private cloud environments
