Job Description

This is an exciting opportunity to contribute to innovative projects in the Technology & Telecoms industry. Based in Tokyo, the role focuses on creating seamless user interfaces and enhancing user experiences.

Client Details

The employer is a reputable large organization within the Technology & Telecoms industry, known for delivering innovative solutions and advancing cutting-edge technologies. The company operates in a fast-paced environment and offers a wide range of projects to work on.

Description

- Develop and implement user-facing features using modern front-end technologies.
- Collaborate with back-end developers and designers to improve usability and functionality.
- Optimize web applications for maximum speed and scalability.
- Ensure the technical feasibility of UI/UX designs.

- Conduct thorough testing and debugging to ensure high-quality deliverables.
- Stay updated with emerging trends and technologies in front-end development.
- Work effectively in a collaborative team environment in Tokyo.

Job Offer

- Opportunity to work on innovative projects in the Technology & Telecoms industry.
- Professional growth in a large organization with a global presence.
- Work in the vibrant city of Tokyo with opportunities for collaboration and networking.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

Required Skills

- Proficiency in HTML, CSS, and JavaScript. (5+ year)
 - Experience working with front-end frameworks like React, Angular, or Vue.js.
 - Strong understanding of responsive design principles and cross-browser compatibility.
 - Knowledge of version control systems such as Git.
 - Problem-solving skills and attention to detail.
