Job Description

Why should you apply:

- Opportunity to lead mission-critical treasury and regulatory technology initiatives at executive level
- Highly strategic role with direct exposure to senior leadership and global stakeholders
- Influence enterprise-wide data and regulatory technology strategy within a complex financial environment
- Work on large-scale initiatives covering liquidity, funding, regulatory capital, and front-office domains
- International and collaborative environment with strong business impact
- Stable organization with long-term investment in data and technology transformation

Responsibilities:

- Lead liquidity and regulatory capital reporting initiatives across global treasury and finance domains
- Define and implement enterprise-level data governance, standards, and scalable data solutions
- Act as a technology architect for big data and advanced analytics environments
- Partner with treasury, regulatory, compliance, and technology stakeholders to drive strategic initiatives

- Translate treasury funding and liquidity business requirements into enterprise technology solutions
- Provide executive-level leadership and strategic direction for large-scale data transformation programs
- Collaborate with senior stakeholders across global business and technology functions

Hiring Company Details:

- Global investment banking environment
 - Large-scale international technology and finance organization supporting treasury, liquidity, regulatory capital, and front-office operations
 - Highly collaborative global structure across business, technology, and compliance functions
-

Required Skills**Required Skills:**

- 10+ years of hands-on experience across data engineering, analytics, governance, and big data domains
- Executive-level leadership experience managing enterprise-scale data initiatives
- Strong understanding of Treasury Funding and Treasury Liquidity regulations
- Knowledge of high-frequency trading / front-office environments
- Proven experience communicating with senior executive stakeholders
- Fluent Japanese and advanced English communication skills
