Job Description

Join a forward-thinking retail technology department as an iOS Developer, where you'll contribute to designing and developing innovative mobile applications. This temporary position in Tokyo offers an exciting opportunity to showcase your expertise in iOS development while working on impactful projects.

Client Details

This opportunity is with a large organization in the retail industry, known for its focus on technology and innovation. The company provides its employees with access to cutting-edge tools and a supportive environment to foster professional growth.

Description

- Design and develop user-friendly iOS applications for the retail industry.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Ensure the performance, quality, and responsiveness of applications.

- Identify and fix bugs to enhance application performance.
- Maintain code quality and ensure best practices in development.
- Participate in code reviews to maintain high-quality code standards.

Job Offer

- Complimentary meals provided at the cafeteria.
- Chance to contribute to innovative projects in the retail technology industry.
- Collaborative and supportive work environment.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Serina Miyazono on +81 3 6627 6130.

Required Skills

A successful iOS Developer should have:

- Proficiency in iOS development, including Swift and Objective-C.
 - Experience with Apple's design principles and interface guidelines.
 - Knowledge of RESTful APIs to connect iOS applications to back-end services.
 - Strong understanding of version control tools such as Git.
-
